📄 Slovak national D visa — in progress 🏠 Relocating to Bratislava, Slovakia

SUMMARY

Full-stack Developer with 1+ year of commercial experience building production web applications with React, Next.js and TypeScript. MSc graduate in Computer Science from Brno University of Technology, with hands-on experience in Java, Spring Boot, REST APIs, SQL and backend development through academic and project work. Currently preparing to relocate to Bratislava and seeking a long-term Full-stack Developer role in Slovakia.

PROFESSIONAL EXPERIENCE

Frontend Developer

WebStead 🔗

08/2025 – Present

Moscow, Russia

- Develop and maintain production web applications using React, Next.js, TypeScript and JavaScript for commercial client projects.
- Build reusable UI components, responsive interfaces and interactive functionality based on business and design requirements.
- Integrate frontend applications with REST APIs and implement state management, forms, validation and data handling.
- Maintain and extend existing applications, troubleshoot production issues and deliver new functionality across SaaS, e-commerce and corporate web projects using Git-based workflows.

PROJECTS

Spinny 🔗

SaaS Web Application

- Built application functionality with Next.js, React and TypeScript, including API integration, authentication, CRUD flows and state management.
- Implemented interactive UI flows and reusable components for a production web application.

Cantexniki 🔗

E-commerce Platform

- Developed frontend functionality for a production e-commerce platform using Next.js, React and TypeScript, including product catalog interfaces, filtering and shopping cart functionality.
- Implemented application state with Redux Toolkit, integrated REST APIs and built responsive interactive UI components.

Moonera Habitat 🔗

Premium Furniture Catalog — In Development

- Developing a responsive product catalog for a premium furniture brand, featuring multiple product categories, individual product pages, interiors and editorial content.
- Implemented dynamic content and product interfaces integrated with a dedicated API, with a strong focus on responsive UI and high-fidelity implementation of a design-driven experience.

SKILLS

- Frontend: React, Next.js, TypeScript, JavaScript, Redux Toolkit, HTML, CSS, SCSS
- Backend: Java, Spring Boot, REST APIs, SQL, PostgreSQL
- Additional: C#, .NET, Python, C/C++, Docker
- Tools: Git, GitHub, GitLab, Figma, WordPress
